

## TITAN Fire and Rescue solutions

### THE TITAN FIRECOMM HUC1

is an ideal helmet communication unit for MSA F1, F1SF and F2 helmets. The unit can be connected directly to the radio or to a speaker microphone or a PTT Unit.

### THE UNIT COMES IN DIFFERENT CONFIGURATIONS:

1. Listen Only – Left or right ear
2. Loudspeaker and microphone left or right ear
3. Stereo loudspeaker

*The in-helmet earphones can be connected directly on the radio or combined together with various PTT options or speaker microphones.*

*The state of the art waterproof (IP67) Lectret microphone provides clear communication, it furthermore enables users of respiratory masks to fit the microphone close to the audio gateway of their mask*

#### ATEX CLASS:

CE 0081 ⚡ II 1 G Ex ia IIC T4 Ga  
 CE 0081 ⚡ II 1 D Ex ia IIIC T130°C Da  
 LCIE 12 ATEX 3062 X

Part number:

EX-HUC1

### Technical data

Speaker		Sound	
Diameter	40 mm	Microphone :	Electret condenser differential Noise cancelling, Waterproof immersion IP67, 330 mV to 114 dB SPL
Rated power	1 W		
Frequency response	600 Hz to 7 kHz	Frequency response :	100 to 10 kHz (Δ10dB)
SPL	92 dB
