

## **TITAN Motorcycle Solutions**

#### TITAN MOTORCYCLE SOLUTIONS

 On this version the Portable radio is connected to a speaker microphone which again is connected to the headset of the biker. The PTT is mounted on the handlebar of the motorcycle which again is connected to the receiving wireless module

When the biker dismount his bike and remove his motorcycle helmet, communication can be done through the speaker micrphone.

- On the second version you can plug the nexus directly into the Police motorcycle, And communicate with the mobile radio.
- 3. The third solution is completly wireless. You use the Wireless remote speaker microphone to communicate with the WAG on the portable radio or the mobile radio.
